Roy,

Here is a first draft of my letter. You might have to change the date on Inge's letter as the earliest date on the motorized statements is the 19th of Nov.

John

John,

Part of an Article IX requires an investigative report. You should be the one to do that. It does not have to be lengthy. Just state the facts and that you talked to all involved and it is your opinion that an Article IX action is warranted. Inge, I know you and John have spoken on numerous occasions about Mueller, so I will type a letter from you to John and date it 11/22/2018 where you ask him to investigate the complaints against Muller. Thanks.
