Dan,

After I attended the September Post 12162 meeting/awards, I requested the Aug minutes from Comrade Pino. She sent them to me and I saw that they didn't reflect the motion to approve members or a vote. She said she would correct them. I am sure she corrected all the minutes up to that time after I pointed out the By-law violation.

The part on Quartermaster's Report doesn't seem to match either. It also states that Commander Mueller reported the Quartermaster Report and provided a worksheet.

Here is a copy of those minutes, and they don not match the current ones.

The only thing I can see on the audit reports is that they mirror the bank statements. It looks as though someone was using the debit card for their personal use also.

John

Commanders,

ATTACHMENT 37

Please see the attached documents. I would appreciate your review and synopsis. We will be bringing disciplinary action against both Steve Muller and Stephanie Pino after Mid-Winter so I would appreciate it if you could each send me your analysis of alleged violations of the By-Laws to ensure I do not miss anything on my end.

Thank you for what you do, it is appreciated.

Dan West
