Subject: 12162mins

Dan,

I apologize for the delay.
I have put in several calls to our Post attorney, but he has not responded as of yet. Because of the alleged By-law violation made by Department in October, the Post membership authorized an attorney to represent us. The letter that was sent requesting the minutes was sent to him after I received it. No information can be released without his authorization.... I was able to get in touch with Commander Mueller via txt and let him know about the situation and that you have requested all of the minutes in an hour. Commander Mueller doesn't see anything wrong with your request, but wanted me to run it by the attorney first. I will update you if anything changes.

Thank you for your attention in this matter
