Subject: Fight of our life

Good afternoon gentlemen,

Its been almost a year since our last conversation.. A lot has changed not you guys of course but in my life. 10 July 2019 Steve Mueller and myself were arrested for false Charges brought us against us by Andrew Camplan and your prodigy Dan west. What was turned into the Pleasanton Police Department was an affidavit accusing us of stealing funds in excess of over 10k which was false. Since that day we have asked for the information turned into the police etc. So here's is what happened after our 2nd VFW appeal which Steve had been removed from all Money missing charges a VFW guilty verdict and our memberships revoked, was sent to Pleasanton Police Department and they thinking that if we were found guilty of stealing by the VFW then we must be guilty of said theft.

March 2019 the affidavit was filed 20 march we were questioned by said police and they committed this is a civil

matter and we never heard from them again until dan west sent the VFW guilty verdict to the Pleasanton Police Department on about 26 June because a warrant was signed on 3 july coincidence I don't think so and neither does our defamation attorney. Our faces were plastered all over the news as far as Dallas and Houston. We live in a very small community our lives have definitely changed. Kevin do you remember the conversation you and I had on the phone to call your dog off about a certain news article that we published renaming ourselves that affidavit was done days later after you spoke to Dan about leaving us alone. Do you think these are coincidences or retaliations due to petty jealousy etc.

I am wondering if the PPD was ever sent the 2nd set of charges? Why would an organization continue to promote a tyrant such as Dan West? You know that Andrew the gentleman that filed the affidavit was a san Antonio retired investigator and he currently has resigned as the assistant quartermaster at the department of Texas probably because he figured out that maybe dan west was a lair and a felon himself. **Which I guess is ok even though Dan West charges were for falsifying government documents.** A retractions of all defaming statements was sent to The department of Texas on 12 July 2019 from Russell Amberry our defamation attorney.

I begged National to come and investigate everything I was saying during that time and I got nowhere. This case will go public within the next few months and everything will come to light. It would have been best if Inge Conley and Dan West would have just dropped the charges and went on about their day. Maybe it's not too late maybe someone once

again should call him off and this time for good. I'm giving National a heads up before hand, be looking for it. If matters don't change for us.

He should retract all statements and drop the false charges. It should have never went this far. If you don't believe me ask Dan for a copy of the demand letter from our attorney in July 2019 and look up on the internet our names and see how we were embarrassed by this man.

This has been the most horrible situation we've ever been in, from being the best Post 12162 in the nation to being arrested. Please do something this time Don't close a blind eye.

Sincerely

Stephanie Pino
