Inge,

This came in from the Post Commander of the Jourdanton Post. The posting is on a private Facebook page belonging to Stephanie Pino, a member of the Pleasanton VFW Post. As it is a private page and from issues like this in the past I do not think there is much we can do if anything. Because I and others where tagged in the original Posting an argument could be made that the contents are no longer restricted to the private page, not sure it would be worth arguing though.

I would see if Commander Shipley has the emails questioning the actions of Post 12162 in Pleasanton.

Subject: FB Posting

Dan as we discussed, here is the entire fb thread of all 72 comments that include those comments made by individuals in the Pleasanton VFW 12162 Post about the Atascosa County VFW 4853 Post. There were 26 individuals, which included the Atascosa County Judge and other ranking members of the county and yourself tagged in the post. Statements made are not 100% accurate and are false accusations. District 20 Commander John Shipley was previously supplied emails from Key City individuals questioning the actions of the 12162 Post. Their actions are unbecoming of an officer of the organization and bring discredit to the VFW.

V/R
Jeff Rankin
Commander
Atascosa County VFW Post 4853
