Stephanie:

As I indicated earlier, the Department of Texas asked the Commander-in-Chief to set the Disciplinary action in your case. We received that letter on May 3, 2019. The request is being processed and you should expect a copy of the Special Order today via email, in addition one will be mailed to your home of record.

Once the panel is set, the Panel President assumes control of the action. Please reference Section 903(h)(1)(a) of the National Manual of Procedure. Also, I would further advise that you review Section 903(i) which describes procedural hearing details.

It should be also noted that the original action was remanded back to the Department for proper initiation; modifications would not be uncommon.
