Subject: RE: Section 109 question
Importance: High

Good Morning

Id like to start by saying Thank you for the constant Help that I have been given during this whole fiasco, I understand that it is not over yet

I don't understand why Bj don't just ask for Our Post Bylaws and the Ledger no one has ever asked for all of these charges could be cleared up just by getting those 2 items. I can have the website where the Ledger and Post bylaws are posted sent to BJ or someone, if that will clear up the funds question the rest of those charges name calling etc that is hearsay by a district commander and disgruntled former post person(s). At some point it's time for someone to put their big girl/boy drawers on and say this is enough , call it over.

23rd is not possible and we can conduct this through email skype etc. We live about 3 ½ to 4 hours away from said hearing location and we run 5 Nonprofits and have school age children. We cannot just up and go for something that makes absolutely no sense to be involved in. And we're not getting reimbursed for travel etc. Actually said hearing should be in the location of where the offense took place which is Pleasanton Texas.

So location is definitely out of the question it can be changed to where we live or we can do this via Skype etc
Date is a no go we have a conference call that day that will last about 3 hours

And the charges are based on nothing. You would think an investigative committee which had a former Police officer would have asked questions to The Post Members and no one was ever asked ANYTHING not even our Trustees which if charging one with misappropriation of funds an Investigative Committee probably would have contacted the ones that oversee the Bank account Ie the Trustees.

Feel free to give each member of the Panel our email address etc.

Ill probably have more to add in a bit but for now Have a great day

Respectfully,

Stephanie Pino
